DETAILED ACTION

Claim Rejections - 35 USC § 112

1. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.
2. Claims 8, 9, and 11-14 are rejected under 35 U.S.C. 112, second paragraph, as being incomplete for omitting essential steps, such omission amounting to a gap between the steps. See MPEP § 2172.01. The omitted steps are: in claim 8, which are recited in claim 11.
3. Claim 8 (last five lines) has grammatical errors and is duplicate of last lines of claim 1.
4. In claim 11 and 12, do phrases “at least one radio frequency coil” and “a body coil or surface coil” refer to the multiple transmit coils?
5. In claim 14, phrases --“coil array”—and “receive coil” -- lack antecedent basis.

Allowable Subject Matter

6. The following is an examiner’s statement of reasons for allowance:

Claims 1-4, and 7 are allowed as the prior art of record does not teach or suggest a RF coil array assembly in a magnetic resonance imaging system, the assembly has a plurality of coils arranged in a configuration for transmitting in parallel, and a plurality of corresponding RF amplifiers each coupled to a corresponding coil to generate current controlled by an RF waveform designed along with the gradient waveform, wherein the waveform being designed to effect shorter time-span excitation k-space traversing by means of reducing excitation k-space sampling density, and wherein the controlled currents are for defining and steering an excitation

volume of an examined subject within the MRI system, in combination with the other limitations of the claims.

7. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
